INTRODUCTION

First Russian nationals' settlements in Italy date back to early '70's when Jewish Russian immigrants reached the Rome coast and other Italian regions. The problem of Russian organized crime has attracted the Italian investigators' attention further to some minor events occurred late in '80's; however, at that time, none of them enabled us to detect and identify any organization or group that could be related to the Russian Mafia.

After the abolition of borders between eastern and western Europe, a continuous flow of former Soviet Union's nationals has concerned Italy; some of them made marriages of convenience with the only view to obtaining stay permits and becoming Italian nationals; afterwards they started working in different business enterprises. Others began to set up small criminal groups exploiting prostitution and smuggling small quantities of narcotics.

The analysis of the Russian Mafia phenomenon has been started when Monya ELSON¹ was located in Fano, in the province of Pesaro. In the United States the latter was involved in extortions, drug trafficking, forgery and murders; he survived four attempts on his life at least.

According to the information obtained by some foreign investigation services, some members of the so-called "Russian Mafia" penetrated the American criminal world and then decided to move from United States to Europe because of the numerous controls over Russian nationals carried out by the U.S. authorities.

In the United States Monya ELSON had set up a criminal organization denominated "Monya's Brigade".

The afore-said organization was linked to the powerful Euroasiatic criminal organization "Solntsevskaja", based in Moscow, with more than 2,000 associates among which many important persons being in contact with government spheres all over the world, as well as with former KGB agents and leaders of other important Euroasiatic criminal groups. Sergej MIKHAJLOV, who has been arrested by Swiss authorities, and Victor AVERIN are the leaders of the aforementioned organization.

¹ Alias "Kishinevskij", born in Kishinev (Moldavia) on May 23, 1951.

PREVIOUS INVESTIGATIONS

1. "RASPUTIN Operation"

In February 1995 our police services noticed the presence in Italy of one **Monya ELSON** who was considered the "number two" of a Russian criminal organization operating in the United States, and namely in the New York area, carrying out illegal activities such as drug trafficking (in particular traffic in heroin).

The U.S. Department of Justice requested **ELSON**'s provisional arrest with a view to extradition since he was considered to be the leader of a powerful criminal organization known as "Monya's Brigade" as well as responsible for three murders perpetrated in January and June 1992, respectively to the detriment of Vjaceslav and Vadim LJUBARSKIJ and of one SLEPENIN, for two attempts on the life of Boris NAYFELD and Vjaceslav LJUBARSKIJ, for criminal association, traffic in heroin and extortion as well.

After some days' moving surveillance, on March 8, **Monya ELSON** was arrested with a view to extradition towards the United States. On the occasion of his arrest, **ELSON** was found in possession of a huge amount of Italian liras, several precious objects, a Bentley car and many documents testifying that he had started a business activity aimed at purchasing furniture and other products that were exported mainly to former Soviet Union.

During the investigation the following elements were ascertained:

- 1) The presence in our Country of some members of Russian mafia groups that had already operated in the New York area; in particular **ELSON** had started to launder illicit profits by investing it in business activities and by transferring it to current accounts opened in some banks in the Pesaro area. The money was transferred from and to foreign and Italian companies; therefore, many cash transactions were carried out by means of these accounts. The afore-said Russian nationals were allegedly in contact with 43 Italian companies, mainly operating in the furniture and jewellery sectors. This kind of transactions covered money laundering operations in the amount of 3 million U.S. dollars. At the end of the investigations, besides **Monja ELSON**, other five Russian nationals were arrested.
- 2) In 1980 a group of Russian mafia members began to settle in Latium region and to provide logistic support to the other associates. This criminal group

carried out other illicit activities such as prostitution, traffic in drugs and frauds.

- 3) Furthermore, the investigations ascertained the presence in Italy of various Russian criminal groups, coming from the United States, who had set their operational bases in Italy in order to provide strict contacts between the associates resident of Russia and those living in the United States.

Monya ELSON's arrest determined a new phase of the Italian fight against Russian organized crime. In particular, the State Police "Servizio Centrale Operativo" (Central Operational Service) started a monitoring activity in order to detect any Russian settlement in Italy and to make a broad outline of the phenomenon in our Country.

2. "SHAKHIMAT" Operation

The aforementioned monitoring activity was underlying a complicated investigation on a Russian criminal organization dealing with money laundering, kidnappings and extortions.

In particular, on the basis of the afore-said investigative results our police services focused their attention on the thief in law Jourij ESSINE, coming from Vladivostok (C.I.S.), who had replaced Monya ELSON in the criminal hierarchy.

The analysis of ELSON's contacts and the examination of the information concerning the Russian mafia and its gradual settlement in Italy resulted in detecting another group of persons living in Rome, headed by an important member of the Russian organized crime, identified as Dmitrij NAOUMOV, who was killed in Moscow in September 1996. A long series of further links and connections derived from the investigations carried out on the latter.

The investigations revealed the presence of an extremely dangerous criminal group that, by perpetrating different crimes, pursued a precise criminal aim typical of a "conspiracy of mafia type", making use of contacts and connivances between the Russian mafia operating in Italy and the Russian political institutions.

The phone conversations wire-tapped during the investigations revealed the complicity between Government representatives, Russian ministries, members of the Russian Duma and some important members of Russian organized crime living in Italy who were interested in encouraging business transactions such as the purchase of foodstuff for humanitarian aid, financed through dirty money.

In such an investigative context, the analysis of the activities carried out by the afore-said prominent Russian criminals in Italy enabled our investigators to detect several sectors the criminal organization was interested in. Furthermore, the police services could identify some members of the Russian organized crime who set up an impressive business structure and made huge illicit capitals enter our country in different ways in order to provide the basis for their activity.

This kind of criminal penetration is particularly dangerous since it altered the regular market systems. The case of the GLOBUS TRADING s.r.l. can be mentioned as an example concerning fuel trade: besides many members of the Russian mafia, one Alberto GROTTI operated within this company; the latter was the former vice-president of ENI (National Hydrocarbon Corporation) and in

November 1996 was arrested on charge of corruption.

By means of the above-mentioned company acting as intermediary, many agreements were conducted with a view to purchasing huge quantities of oil; the relevant transactions were generally directed towards those firms controlled by the Russian mafia and subjected to extortion.

The police operation denominated "SHAKH I MAT" (checkmate) ended in March 1997 when the Rome Judicial Authority issued 19 orders for precautionary custody; 14 of them were executed in Madonna di Campiglio and in other Italian towns for criminal conspiracy of mafia type, kidnapping, extortion and other crimes to the detriment of Russian and Italian nationals.

On that occasion, the police carried out several searches involving about 40 persons under investigation and seized many current accounts, and shares belonging to three different companies as well as a luxury villa.

3. "LEON" Operation

In March 1997 another important police operation against the Russian organized crime was concluded by the Servizio Centrale Operativo; during the investigation many firearms, laser aiming systems, and ammunition were found in a Rome apartment.

The afore-said apartment was used as a logistic base for some members of the Russian organized crime; it had been rented by Aleksander SOLONNIK, born in Kurgan (C.I.S.) in 1961, killed in Athens in February 1997, under the false name of KESOV Vladimirov.

Further investigations determined that SOLONNIK was the leader of a Russian criminal organization denominated "Kurganskaja Brigade", committing contract murders and international traffic in arms. He usually travelled from Italy to Greece under different names together with other associates living in Rome.

THE UKRAINIAN MAFIA

First of all, it should be said that the following information derives from an analysis made by means of Internet sites belonging to the Ukrainian newspapers in Russian and English languages (in particular the Odessa magazine "Slovo" and the "Kiev Post") and this because of the difficulties to be faced in order to obtain information from the traditional official channels.

The Ukrainian organized crime that has already crossed the national borders, today represents a threat for all the other countries. Organized crime takes advantage of social and economic difficulties typical of the State in a transition phase towards a market economy and it becomes one of the most destabilizing factors.

The crimes perpetrated in Ukraine in the last years have been characterized by more and more cruel criminal methods. A number of murders, attempted murders and kidnappings were often aimed at affecting the economic and political development process of the Country:

- In July 1996 the failed attempt on the life of Pavel Lazarenko, who was the Ukrainian Prime Minister. At that time, he had started the re-organization of the gas distribution market against the interests of some criminal organizations of the Donetsk region;

- In November 1996 the murder of Evghenij Scherban, president of the Aton Transnational Trading Company and deputy of the Ukraine's parliament. Police believe Scherban's commercial activities in the gas and metallurgy markets were probably the motive. Scherban had contributed to make the Donetsk area one of the most privatized regions in Ukraine.

The situation of the organized crime is particularly serious in Odessa where the economic interests related to the oil market made this important Ukrainian port the place where violent criminal facts have occurred².

²The most important events occurred in Odessa in 1997 are hereafter reported:

- In August 1997 an attempt on Gurvitz's life was foiled; according to Gurvitz it had been organized by the members of the Russian criminal organization called "Solntzevskaja" led by one Prishljak, alias Okun'. The sniper, during the attack, allegedly was one Nuri Ibraghimov, nicknamed "Strelak" ("the sniper").
- The murder of Boris Derevjanko, chief editor of "Vechernjaja Odessa", who was struggling, through his articles, against organized crime.
- The assassination of some members of the family of Andrej Dikuser, leader of the Ukrainian Rural Party.
- The murder of Viktor Belous, the managing director of the "Odessa Ciaj" company

1. The Odessa organized crime.

About twenty organized crime groups consisting of 6,000 "soldiers" are presently operating in Odessa. These groups can be classified as follows:

1. Armed criminal gangs operating just at a local level
2. Armed criminal gangs infiltrating the government institutions
3. Groups of many gangs operating at a local level, but with strict links connecting one to each other; they form a typical Mafia structure.

The main Odessa criminal groups are the following:

1. "Karabasovskie" group - its name derives from "Karabas", the group's leader, a thief in law particularly interested in the illicit oil trade, with many criminal records, who was killed on April 21, 1997.
2. "Stojanovskie" group - its name derives from G. Stojanov, "criminal authority" and the leader of the group.
3. "Stasovskie" group - its name derives from "Stas", the leader of the group.

It seems that presently almost ten "thieves-in-law" and some other "criminal authorities" who have not been "coronated" yet, are operating in Odessa.

Some other Odessa criminal groups have already settled in other countries such as Italy (and namely in Rome), Hungary (Budapest), Germany (Berlin and Dusseldorf), Austria (Wien), England (London), Switzerland (Geneve), Belgium (Antwerp), France (Côte d'Azur), Principality of Monaco and United States (New York). Each organized criminal group pays a periodical contribution to its Odessa organization's "common fund". It is possible that the Odessa criminal groups resort to Ukrainian criminals residing abroad with a view to having contract killings and shoot-outs committed.

2. The Oil Mafia

The trade of Russian oil is a very remunerative but also very violent business. One of the reasons underlying the incredible increase in oil exports is the fast line-up of Russian oil prices with the world market prices, as provided for by the International Monetary Fund. In such a way the oil demand has reduced in Russia since the price was too high for many companies. At the same time a big quantity of oil was intended for exports. According to the international experts the organized

crime manages 67% of the Russian oil exports.

Because of the illegal oil exports, in 1993 the Russian Federation reported a 300 million dollars loss; the majority of this money has been deposited in Western banks.

The internationalization problem is particularly evident in the joint ventures involving western and Russian companies dealing with the crude trade. In the Russian oil industry there are presently about forty joint ventures operating with western countries; The majority of them is involved in illegal commercial activities facilitated by the spread out corruption of government officials. In this sector the frauds show particular features: the predominance of private commercial activities within the Russian oil business; the considerable profits; the link with the underground economy and with the Russian organized crime; the violent methods; the connection with the western countries through the oil sale that makes it possible to transfer uncontrolled funds to the partners; new residence places and hide-outs.

All these elements together with the corruption originate the so-called "oil Mafia" phenomenon that is going to cross the Russian borders to reach the western European Countries.

3. Odessa and the "Neftemafija"

Odessa is the town where the criminal organization under investigation is presently operating. It is the most important Ukrainian port of the Black Sea as well as the principal port for the trade of oil coming from Siberia and transported to Europe. From this town started the expansion of Russian capitals deriving from oil market within the Ukrainian economy. The relations between Ukraine and Russia have always been very delicate. They are characterized by a reciprocal advantage: on the one hand Ukraine depend heavily on Russian oil and gas exports, on the other hand Russia relies on Ukrainian pipelines for 95% of its gas exports to Europe. Despite this mutual dependence, relations with Russia often turn contentious. At times Ukraine has used Russian dependence on its pipelines as a bargaining tool to extract higher transit fees while Russia has accused Ukraine of removing transit supplies.

In an attempt to decrease its dependence on Russian exports and to put an end to its economic and politic dependence on Russia, Ukraine is actively trying to open a transport corridor for oil coming from Azerbaizhan (via the Black Sea ports in Georgia): Odessa has been chosen as the town where the new oil terminal will be built in order to allow Ukraine to supply local refineries with crude oil coming from Azerbaizhan and from the Black Sea.

Furthermore Ukraine has long term plans to build an oil pipeline to connect the Black Sea port of Odessa with the "Druzhba" export pipeline.

The realization of such plans is firmly opposed by "Russian oil intermediaries" who look at the new oil terminal as a threat to their interests: in fact from the Odessa port every year 13 million tons of oil are exported and the profit amounts to about 6-7 dollars per ton.

Among the persons opposing the oil terminal there is MININ Leonid, an Ukrainian entrepreneur operating in Odessa in the hydrocarbons sector. Because of his connections with some important politicians and due to his dubious management methods, he is believed to be one of the most important members of the "Neftemafija", (the oil mafia). His company won a tender for the reconstruction of an obsolete oil refinery located in the centre of Odessa; despite protests from the Ukrainian Green party the refinery keeps on working, with serious ecological damages.

As to the Odessa new oil terminal and to the moving of the refineries out of the town, opposite political sides arose and caused a state of unbearable tension.

Some criminal organizations tried to take advantage from this difficult situation by supporting one political side or the other and planning attempts on the life of local government representatives.

INVESTIGATIVE ACTIVITY IN ITALY

For almost one year, the Servizio Centrale Operativo of the Italian National Police has been carrying out a complex investigation on a criminal group of Ukraine origins associated with the so called "Russian Mafia" and involved in international arms and drug trafficking, money laundering, extortions and other offences. This group is headed by the Ukrainian businessman MININ Leonid.

From investigation emerged that the above mentioned group is made of the following individuals and by others that have not been identified, yet.

1. **MININ Leonid Efimovich**, born in Odessa on 14.12.1947, current address in Via del Pollaiolo n. 3, Rome; lives together with SHLYAM NAJDA Irina, born in Odessa on 2.4.1957, widow of the Russian Mafia member NAJDA Vladimir;
2. **TCHERNIAK Alexandre**, born on 20.1.1973, resident in Via San Fiorenzo n. 10, Rome, actual address: Via dell'Alpinismo n. 24, Rome;
3. **ANGUERT (a.k.a ANGHERT, a.k.a. ANGERT) Alexandre**, nickname Sania, born on 24.12.55, Israeli citizenship.
4. **FOMICHEV Nicholay**, a.k.a. **Kolija**, born in Ukraine on 13.2.1958.
5. **MALYSHEV Igor**, born in Odessa on 21.4.1972, with an address in Via Baldo degli Ubaldi n. 66, Rome;
6. **TRUKHANOV Gennadiy (Hennadji) Leonidovyc**, born in Odessa on 17.1.196, with an address in Via Belloni n.20, Rome.
7. **KLESHCHOV Oleg**, nickname "Klesh", born in Ukraine on 7.2.1960.
8. **IVANCHO Andrij**, nickname "Andriuka", born in Ukraine on 23.3.1965, tel: 0038.048.2351759;
9. **BYCHKOV Oleg**, born in Ukraine on 7.3.1965;
10. **MIROCHNTICHENKO Serguei**, nickname "Serioga", born in Kiev on 25.5.1969, with an address in Via Grottoni n. 30, apartment 9, Rome;
11. **DEMENTIEVA Liudmilla**, born in Pechory (former Soviet Union) on 10.6.1945, resident in Piazza Mancini 4, Rome, tel: 0039.0338.8263266, 0039.06.3232558;

12. **LIPSHTEN Regina**, born on 20.4.1967, Israeli citizenship.
13. **TRUKHANOVA ANATOLIYVNA Tetyana**, born in Odessa on 8.5.1966, resident in Via Belloni n. 20, Rome.
14. **DIDYK Oleksandr**, nickname "BMW" or "Bum", born in Odessa on 21.2.1971, resident in Via Cassia n. 964, Rome.
15. **NASAROV Andrej**, born in 1974, resident in Perekovskaja Divisa 67A, Odessa, tel. 0038.048.2351759;
16. **YARKOVOJ Dmitri**, 22 years old;
17. **ROUDAKOVA Marina**, nickname "Masha"⁷, born on 24.1.1962, resident in Via Pietro Giannone n. 27, Rome, tel. 0039.06.39739053, 0039.0335.8219408;
18. **ROUDAKOVA Larissa**, nickname "Lorka"⁸, born on 26.3.1970, resident in Via Pietro Giannone n. 27, tel. 0039.06.39739053;
19. **BELOLIPSKAIA Vladlena**, born in Kemepohekar (CSI) on 29.8.1968. with an address in Via Gradoli n. 78, Rome.
20. **MITRONOVA Dusia**, (TCHERNIAK's grandmother) tel. 0038.048.2542688; 0038.048.2472375;
21. **MALISHEV Oleg Ivanovich** (further particulars unknown), MALISHEV Igor's father;

Some of the above mentioned individuals married Italian women with the purpose to obtain the Italian citizenship. However, they kept on living with their original Ukrainian wives.

As a matter of fact, marriages with Italian nationals represents the most effective way to facilitate the immigration of Ukrainian nationals and have them achieve the Italian citizenship in a short period of time.

To obtain a permit of stay and, subsequently, the status of Italian citizens, the members of the criminal organization pursue the following bureaucratic course: they

⁷ once associated with the acknowledged killer of the Russian Mafia SOLONNIK Alexander;

⁸ once associated with the acknowledged killer of the Russian Mafia SOLONNIK Alexander;

RISERVATO

enter Italy with a tourist visa and, during their stay, they request an authorization to get married to the Consulate of Ukraine in Italy. Once this document is obtained, they present it to the Town-Hall, which sets the date for the celebration of the marriage. The marriage certificate is the necessary requisite to obtain a permit of stay with the purpose to "join the family".

Within the group, generally it's female members or associates that take care of all problems related to the regularization of the stay of different members.

From intelligence developed sofar, it was possible to determine that TCHERNIAK and some of his henchmen have already married italian citizens and, what is more, they have initiated the procedures necessary for the recognition of their status as Italian citizens.

From investigation it surfaced that even if the above mentioned criminal group does not perpetrate particularly serious offences in our country, it is extremely dangerous because, through a close network of international contacts it plans and carries out, particularly in Odessa, several and constant criminal activities such as extorsions, arms trafficking, the planning of murders of politicians or individuals linked to opposite groups.

1. The Structure of the Organization

The organization under investigation emerged to be structured in an extremely hierarchical way. However, if on the one hand it was possible to identify the "soldiers", on the other hand the complexity of "internal" relationships between some kingpin figures has not allowed sofar a thorough understanding of the hierarchical structure of the leadership.

1.1 The "Soldiers"

During investigations the names of the following individuals emerged, who could be identified as "soldiers" within the organization.

a) Alexandr TCHERNIAK plays a double role. He facilitates the safe and rapid settlement of members of the original criminal ethnic group in Italy and guarantees a constant connection between top-level members and the so-called "boys" from Odessa. In this regard, consider that he mantains telephone contacts on a daily bases with his closest associates in Odessa (Sanja BMW, Seriozha, Igor), whom he gives instructions relative to the administration of the "common fund" and the perpetration of criminal activities by the organization in Odessa. In this contest, the role played by TCHERNIAK's grandmother, MITRONOVA Dusia, is particularly interesting. From many telephone conversations, she appears to be the one who

preserves the "common fund" at home, and the person indicated by TCHERNIAK to the "boys", where to go and receive their "salaries" and deposit the profits derived from illegal activities;

b) Oleg KLESHOV is very close to indefinite military systems that belong to the criminal organization as well. Thanks to his extensive contacts with individuals that work with investigative units in Odessa, he is able to ensure a constant updating of confidential information on members of the organization. Obviously, this allows the criminal group to avoid part of the contrast initiatives undertaken by certain law enforcement agencies. Moreover, consider that KLESHOV, thanks to his contacts within Institutions, is able to guarantee a rapid course of action for the issuing of important documents such as licences to carry fire-arms, birth certificates, passports and others.

e) DIDYK Oleksander, MIROCHNTICHENKO Serguei and MALYSHEV Igor are TCHERNIAK's main representatives in Odessa. They are in charge of illegal practical and administrative tasks and are responsible for the "assistance" and "protection" of members' relatives, whenever they are in "danger".

1.2. Leadership

In the course of investigation, the criminal profiles of the following individuals emerged, who can be certainly indicated as the "sophisticated minds" of the group:

(MININ)

Among these subjects, the figure of MININ Leonid certainly stands out. He is an ambiguous businessman at the top of a transnational financial empire made of companies operating mainly in the field of oil products. For years, he has been travelling between Paris, London, Montecarlo, Berlin, Vienna, Geneve, Tel Aviv and Odessa.

Information obtained from foreign law enforcement agencies, in particular of European countries, confirms MININ's criminal relevance. However, it is difficult to determine which precise position this subject holds within the leadership, considering that he is a wealthy businessman who, due to his complex business activity, is connected with the most different political and financial environments,.

With respect to the settlement of the organization in Italy, note that MININ has been the first representative of this group to choose Rome as operative base for his innumerable activities, both legal and illegal. Moreover, the highest levels of the organization hold their meetings in Italy and it is believed they were outright top-level summits with the purpose to develop the group's criminal strategies.

RISERVATO*Anguert or Anghert or Angert*

Alexandr ANGUERT, alias Sanya, known in Odessa as ANGEL, is the linch-pin of the Odessa organized crime. His criminal background is mainly related to the recent administrative elections; he has been the subject of a very strong media campaign determined by the political competition between the two main candidates.

ANGUERT is strictly linked to MININ : He is interested in the same business in the oil sector. He is certainly one of the most influential persons of the criminal organization under investigation and it is evident from TCHERNJAK's behaviour: he is always prompt to inform him about any important event.

Otherwise, it should be stressed that the relationship between TCHERNJAK and MININ is very different; in fact, the latter is not interested in the specific problems of the Ukrainian group. On the one hand it can be said that ANGERT and MININ are in a position of equality as far as the strategies and the general interests of the criminal organization are concerned; on the other hand it is impossible to detect a functional relation between MININ and TCHERNJAK.

The important role played by ANGERT is confirmed by the state of ferment among the members of the organization on the frequent occasions of his travels to Italy. Every time he arrived in Italy he met the most important members of the criminal group. During these meetings the participants defined the aims and the complex criminal strategies to be pursued by the organization.

Besides ANGUERT and MININ, the afore-said meetings are always attended by TRUKHANOV Hennadij and Alexandre TCHERNJAK and, sometimes, by other persons as Oleg BYCHKOV and Andrej IVANKHO.

Fomichev

FOMICHEV's criminal profile is not defined yet, since the information in our possession enable us just to exclude that he has executive tasks. As far as his criminal role is concerned, it should be considered that, according to the Belgian investigators, FOMICHEV is an important member of a criminal organization specialized in drugs trafficking and money laundering.

FOMICHEV is resident of a foreign country, but unlike ANGUERT, he has not relevant contacts, from the investigative point of view, with the members of the

RISERVATO

RISERVATO

Servizio Centrale Operativo della Polizia di Stato

group under investigation. It should be stressed that FOMICHEV is one of the ANGUERT's closest assistants. All the phone conversations between ANGUERT and TCHERNJAK are always preceded by a short conversation between Tchernjak and FOMICHEV; subsequently ANGUERT calls TCHERNJAK. This procedure is determined by ANGUERT's need for security measures in order not to be traceable.

Trukhanov Hennadij

Ghena is one of the leaders of the criminal organization settled in Italy. He is resident of Italy. He is a friend of TCHERNJAK and has frequent contacts with Sanja ANGUERT. In the course of their phone conversations they talk about the political developments in Odessa.

The phone conversations revealed that TRUKHANOV is the owner of one of the so-called "security firms".

In the last years, in fact, further to the expansion of the organized crime, in Ukraine and in other countries of the former Soviet Union, the businessmen and the politicians have begun to employ specialized body guards.

It should be stressed that the "body guard" has become an actual status symbol. Therefore, numerous security firms have been set up; they employ very athletic men, former policemen and KGB agents or criminals.

TRUKHANOV is the only one who often travels to Odessa where through his contacts with law enforcement representatives he can avail himself of detailed information concerning the police initiatives aimed at combatting the organized crime.

2. Illicit activities

One of the peculiar element also characterizing the other previous investigations on Russian Organized Crime, is related to the fact that the majority of crimes are committed in the C.I.S. countries and it is difficult for us to obtain reliable information about them.

The wire-tappings executed during the investigation enabled us to ascertain the criminal potentiality of the organization and in particular they revealed the following:

RISERVATO

RISERVATO

a) the Odessa competent authorities have prosecuted the criminal group under investigation and arrested some of TCHERNJAK's closest associates;

b) many references have been made to the fire-arms in possession of the criminal organization and to the possibility to attack some rival gangs which are accused of being responsible for "all the events happened to Angel's boys in Odessa".

c) the Ukrainian criminal group has to face different emergencies: on the one hand the group members have to obtain the police and Secret Service (Komitet) co-operation in order not to become targets of the fight against organized crime; on the other hand, they have to enter into alliance with the other criminal groups and to protect themselves from the attacks of rival gangs as the "Stojanovskie" that have been accused of providing information to the police services;

d) there is a lot of references to an alleged traffic in arms. In fact, though a real traffic in arms has not been ascertained between Italy and Ukraine as well as between Ukraine and the other European countries, the members of the organization are in possession of a great quantity of weapons such as guns, machine-guns, pistols, hand grenades and explosive.

e) reference is made to the commission of attempts on the life of some politicians, as the murder planned but not executed in the course of the Odessa March elections.

In addition, many phone conversations deal with sums of money to be cashed and then distributed to the members of the organization (these transactions are the result of possible extortions allegedly committed by the criminal group under investigation to the detriment of businessmen.

The information enclosed in this document regarding the structure of the Ukrainian criminal organization let us better understand the facts and circumstances emerging from the phone conversations between the organization's members.

TCHERNJAK can rely on several contacts constantly informing him about the major events occurring in Ukraine. In this regard, the period preceding the Odessa March elections has been very interesting. The members of the criminal group were particularly anxious since the Ukrainian judicial authorities had increased the precautionary and coercive measures against criminals.

TCHERNJAK, who is the main reference point of the Rome operational base, has often given orders to his "boys" such as "to get away from Odessa for

RISERVATO

Servizio Centrale Operativo della Polizia di Stato

some days, to gather sums of money intended for the organization; to be constantly in contact by means of different and "coded" phone lines and to be ready for any emergency".

In the last few months TCHERNJAK and his friends have been worried about the investigations carried out by the Odessa police on the members of their organization. They believe that such investigations are the result of some complaints lodged by the members of a rival gang, the "Stojanovskie", with a view to eliminating their opponents.

- In 1994 the Swiss police investigated him for drugs trafficking (cocaine) and money laundering;
- Minin has been investigated by the Monaco police because of his contacts with the Ukrainian organized crime and since he was suspected of being involved in money laundering;
- In June 1997 Minin received a Monaco note concerning the prohibition from staying in the Principality of Monaco;
- On Nov. 11, 1997 Minin was expelled from Germany since his name results to be inserted in the SHENGEN index as "a person not to be admitted ".

Minin often meets some alleged members of Russian organized crime.

INVESTIGATION ACTIVITIES

During the investigations on the Ukrainian criminal organization presently settled in Italy, Minin emerged as the supreme leader of the criminal activities carried out by the group in question, mainly in Odessa and all over in Europe, in order to guarantee the realization of Minin's business strategies: in fact he is the owner of many companies operating in the raw material and oil products import-export field.

The criminal skill of the Ukrainian organization, that avails itself of a real "operational group" with a sort of military structure, is certainly exploited by serious economical interests resorting to intimidation, violence and corruption in order to ensure the development of profitable licit and illicit business activities, and to overcome any obstacle to the complex commercial procedures.

According to the investigations carried out until this moment, TCHERNJAK Alexander, who is presently in Italy, is leading a large group of persons living

RISERVATO

in Odessa; in turn they are charged with the execution of orders deriving from Leonid Minin and Alexandre Angert, who are both responsible for the criminal organization having many branches all over Europe.

Minin's role and activities resulted to be extremely dangerous for society. The investigations carried out in spite of the difficulties deriving from his polyhedric character and from the vast business structure owned by him, enabled the investigators to ascertain Minin's specific responsibilities in significant illicit activities in many European countries.

Minin is always very careful to communicate with others in order not to be subjected to judicial investigations; he usually speaks very synthetically and using "coded" words especially with regard to his "international business".

In the last years Minin has been the owner of several companies dealing with oil products trade: among them, LIMAD AG, with the head office in Zurig and some branches in the Principality of Monaco; GALAXY ENERGY with the main office in Luxembourg; GALAXY MANAGEMENT with the head office in Geneva; UKRENERGY TRADING CORP. with its head office in Tortola, British Virgin Islands; BITIMPEX Energy with its main office in Tortola, British Virgin Islands. In order to manage all these companies Minin has set up the relevant offices in many towns such as Zurig, Wien, Rome, Kiev, Munich, Montecarlo, Odessa, Moscow and even Beijing (China).

The police investigations carried out on his activity and the difficulties to be faced within the oil sector have originated Minin's decision of closing the Odessa office and of making the Kiev, Moscow and Montecarlo offices smaller and smaller.

The end of Odessa office's activity is particularly significant since it points out the serious changing situation of the power relations that in the past were dominated by Minin since he had been the main oil exporter from Ukraine, as well as the principal businessman managing the Odessa port activity.

From early 90's Minin has been taking part in many business activities in Italy, in particular in Milan and Rome, but he has never regularized his position by applying for a stay permit; furthermore his name has never appeared in the official staff structure of his companies. Minin's participation in some Rome companies dealing with the oil products trade has been ascertained.

COMPANIES

RISERVATO

By means of the DUN & BRADSTREET company's data bank the investigators have identified the company set up in 1967 and denominated "LIMAD INTERNATIONAL TRADING" with the head office in Monaco, Gildo Pastor Center, Rue de Gabian 7, operating in the raw materials trade sector: the company owners are Leonid MININ and NAJDA Irina.

MININ results to be the official director of the joint-stock company denominated "LIMAD AG", having the corporate purpose of wholesale trading in non-durables, with its main office in Switzerland, Bahnhofstrasse 21, 6304 Zug. The board of directors is composed of the following persons: Markus ZWICKY, Natalie BABAEVSKAJA, V. Petrovich PUSHKAREV, Marta SOLODKO, Leonid MININ.

According to the information provided by the data base of the Rome Chamber of Commerce, in January 1995 the Swiss company denominated "LIMAD AG" opened an office in Italy and namely in Rome, via Bellini 2. This company, represented by ENICHLMAYR Susanne, born in Austria on Nov. 11, 1965, ceased its activities in Italy on March 31, 1996.

LIMAD AG results to be linked to the Italian company denominated GALAXY ENERGY S.r.l. because of two elements: the coincidence of the administrative offices addresses in Rome, via Bellini 2, and the presence in both of them of the aforementioned ENICHLMAYR Susanne, being the legal representative for the LIMAD AG since Jan. 3, 1995 and a simple employee of the GALAXY ENERGY Srl from 1992 to 1996.

Susanne ENICHLMAYR has often travelled by Minin's planes: in particular on May 9, 1994 and Dec. 11, 1995. She is still working for Minin at the Montecarlo LIMAD company.

The information provided by the Rome Chamber of Commerce revealed that the following companies are the present partners of the GALAXY ENERGY Srl:

- F.B.A. Finanz und Beteiligungs Aktiengesellschaft AG, a Liechtenstein holding company owning a 16,400,000 lire share;
- GALAXY ENERGY HOLDING COMPANY s.a. with main office in Luxembourg, owning a 3,600,000 lire share.

The board of directors of the F.B.A. Finanz und Beteiligungs Aktiengesellschaft AG consists of the following persons: FILOSA Massimo, SERENA DI LAPIGIO Giangiacomo, OEHRI Gerry.

RISERVATO

99% of the GALAXY ENERGY HOLDING COMPANY S.A. capital stock is in possession of the Panama company denominated "CARFOLD TRADING SA".

On March 9, 1997 Leonid MININ was controlled by the police at the Nice airport and he was found in possession of some visit cards where he appeared as the chairman of "BITIMPEX ENERGY LIMITED". On the afore-said cards several Rome, Wien, Kiev, Odessa and Moscow phone numbers were written; in particular the Rome BITIMPEX numbers - 39-6-8551333 and 39-6-8419863 - resulted to be registered in the name of "LIMAD AG" and operating in the premises of Rome, via Bellini 2, the same address of GALAXY ENERGY Srl.

Among the documents found in possession of MININ a paper coming from the BRITISH VIRGIN ISLANDS has been examined: it certified that the "BITIMPEX ENERGY Ltd" company was set up in that State on July 26, 1995.

The persons connected with GALAXY ENERGY Srl and in particular Leonid MININ, as its representative, have been involved in judicial investigations concerning international traffic in drugs and money laundering.

Leonid MININ has set up many offices in the following countries in order to develop the "LIMAD INTERNATIONAL TRADING" and the "LIMAD AG" activities in the oil sector:

- 1) Ukraine - Kiev: Aleksander KONDRASCHOV, phone numbers 007/044/2277316 007/044/2143217;
- 2) Russia - Moscow: Mr PUSHKARIOV, phone number 007/502/2213611;
- 3) Switzerland - Zug: Marta SOLODKO, phone number 0041/7116133;
- 4) Montecarlo-: Susanne ENICHLMAYR;
- 5) China - Beijing: ANNE LI, phone numbers 010/65263822.

PREVIOUS JUDICIAL INVESTIGATIONS

RISERVATO

Servizio Centrale Operativo della Polizia di Stato

In 1992 the Guardia di Finanza (the Customs Police) of Milan carried out a series of complex investigations on a criminal organization operating in Italy and with several ramifications in Neatherland and Germany. In the course of them it has been ascertained that many persons and companies such as GALAXY ENERGY Srl, with its main office in Rome, via Bellini 2, connected with Leonid Minin, were involved.

Recent investigations revealed that Leonid Minin had connections with CASTELLA Antonio and Fantò Giuseppe, the directors of the Europa Hotel located in Cinisello Balsamo (Milan) and owned by the company set up by SHLYAM NAJDA Irina and FANTO' Maria Caterina (Castella's wife). The business relations between Minin and Castella begun in 1992 when CASTELLA and his wife were accused and then sentenced for laundering of money deriving from international traffic in drugs.

DIDI EMANOUHIL was sentenced on the same charge since he participated in the Castella's illicit activities. At that time he often used the phone number 0337-740533 belonging to GALAXY ENERGY Srl.

From the phone conversations wire-tapped by the investigators it resulted that in 1992 Leonid Minin was usually contacted at the phone number belonging to the afore-said company (06-8413155). The conversations regarded the purchase of a hotel and Russian icons.

The persons mentioned above laundered money by resorting to a clearing system and making remittances from a foreign country to another availing themselves of foreign accounts belonging to some Italian businessmen; for this reason the latters received huge sums of money as a compensation.

The Rome-located GALAXY ENERGY Srl has been investigated by the Belgian Police with reference to the murder of the Russian entrepreneur MISSIOURINE Vladimir, born on Aug. 8, 1954, suspected of being a member of the Russian organized crime: he was killed in Bruxelles on Dec. 18, 1994.

Belgian authorities executed a rogatory letter in Italy in order to question Leonid MININ and FILOSA Massimo, and to search the GALAXY ENERGY Srl premises.

The afore-said MISSIOURINE Vladimir resulted to be one of the share holders and owners, together with one CHALAGUINE Alexandre, of the Belgian company denominated "ACS S.A." dealing with the oil products trade. Within the head office of the aforementioned company some other companies, administered by MISSIOURINE, carried out their activities; among these the

RISERVATO

RISERVATO

Panama "STENFORD INVESTMENT INC." and the Liberian "HARTLAND INTERNATIONAL Ltd".

The above-mentioned companies and the Belgian LANCEDOR S.A., administered by CHALAGUINE, were suspected of carrying out financial illicit activities and acting as intermediary in the oil products trade sector, presenting a turnover that could not cover the expenses. In particular LANCEDOR S.A. and ACS S.A. bought oil products and sold them, even the same day, to Ukrainian companies.

According to the investigative results, on Dec. 14, 1994 the STENFORD INVESTMENT INC. requested a commission of 117,240 US dollars to the GALAXY ENERGY Srl company, located in Rome, via Bellini 2.

The Belgian authorities' request for the rogatory letter originated from the fact that on Dec. 14, 1994, at 12,01 (four days before MISSIOURINE's murder) the telephone number belonging to the Rome GALAXY ENERGY Srl had been called by CHALAGUINE's phone.

During the search of the premises a document dated May 26, 1994 was found; it referred to the oil products trade and had been drawn up by BABAEVSKAJA N. who represented the Kiev GALAXY ENERGY AG company. It was addressed to the attention of Mr MININ, at Rome GALAXY ENERGY.

Therefore, it has been ascertained that the afore-said BABAEVSKAJA is the Kiev GALAXY's delegate and the person responsible, together with MININ, for the Swiss LIMAD company.

The link between Minin and the Swiss GALAXY MANAGEMENT company "directed" by FILOSA, - who has been involved in the investigations on MISSIOURINE's murder - also emerges from the information gathered by the French police according to which:

"In 1993-94 MISSIOURINE co-operated with MININ with regard to the sale of oil. In this period MISSIOURINE often made use of Minin's private plane (Challenger 600). Then, their relations got gradually worse. As to their capital transfer transactions they used the GALAXY MANAGEMENT SA company located in Switzerland, Italy and Monaco."

As far as the Belgian investigations on Minin are concerned, recently Interpol-Bruxelles has communicated that a criminal organization consisting of Russian nationals is presently operating in the province of Brabant (Belgium) and

RISERVATO

dealing with drug trafficking and money laundering. The following persons result to be involved in this organization: FOMICHEV Nikolaj, born on Feb. 13, 1958, Israeli national; LIPSSTEIN Regina, Israeli national; ANGERT Alexandre, born on Dec. 24, 1955, Israeli national; MININ Leonid, born on Dec 14, 1947, Russian national, domiciled in Germany and Italy; the users of the Italian telephone numbers 0335-336811 and 0335-98973.

The name of Angert Alexander had already appeared during the investigations concerning the MISSIOURINE's murder. In fact, according to the information provided by the French police, ANGERT was invited to Switzerland on June 10, 1994 as the Losanne TASSO S.A. company's consultant. The afore-said company had been set up by Missiourine in 1992.

The Belgian information on the links between the persons mentioned above have been confirmed by the investigations carried out in Italy. Many meetings in Italy and abroad have been ascertained by the Italian investigators; during these meetings the participants had a very cautious behaviour.

The connection existing between MININ and the persons under investigation in Belgium is proved by the controls carried out at Ciampino airport: since 1995 FOMICHEV Nikolaj and ANGERT Alexander have often travelled by Minin's private planes:

- On Nov 17, 1995 from Wien, by Challenger 600, MININ Leonid, FOMICHEV Nikolaj, ANGERT Aleksandre, TCHOUMAKOV Aleksander, born on March 3, 1970, KLYMETTYEVA Jetyana, born on July 18, 1961, PENNINO Giannantonio, born in Milan on May 4, 1952, ANGELUCCI Giancarlo born on Feb. 14, 1938.

- On Nov. 17, 1995, from Ciampino to Nice; MININ, FOMICHEV and ANGERT;

- On Jan 15, 1996 by a private Executive Jet ATV from Tel Aviv via Rome to Wien; FOMICHEV, ANGERT, KRAVCHENKO Ekaterina, born in Ukraine on Feb. 13, 1969, POMERANZ Lilia, born in Austria on Nov. 9, 1950, POMERANZ Jefim, born in Austria on June 27, 1949.

- On Jan 23, 1997 by a Challenger 600 from Nice: MININ and ANGERT; then they departed to Berlin together with SHLYAM NAJDA Irina and SOLODKO Maria, born in Ukraine on Sept. 25, 1970.

It should be stressed that the first telephone number indicated by the Belgian

The other cellular phone number (0335-398973) is used by TCHERNIAK Alexandre.

Leonid MININ is also in contact with Valery TOMAL, born in Odessa in 1963, incriminated in 1992 in Odessa together with ANGERT and TCHERNJAK; in fact, MININ and TOMAL have travelled by the 189GE private plane belonging to MININ in the following circumstances:

* On 15-2-1994, departing at 7,00 pm from Ciampino to Odessa. Minin and Tomal were together with MOROZOV Dmitrii, born in Odessa in 1977; SCHMIDT Albert B.F., born in Germany on 21-11-1922; TAMMAN Alphonse, born in Tripoli on 29-3-1942; GOEDOCKE Gherard, born in Germany on 24-12-1950;

* On 4-4-1994 landing at Ciampino at 9,00 am, from Geneva and departing to Odessa at 9,30 am. The afore-said persons were flying together with IOLOSTVAN Alexandre, born on 25-2-1961 in Ukraine; ANGUERT Alexandre, born on 24-12-1955 in Ukraine; DOROJKINE Nikolai, born on 13-5-1952 in Ukraine.

During the surveillance activities carried out in order to investigate TCHERNJAK it has been ascertained that the latter took part in some meetings attended by the leaders of the Ukrainian criminal organization and namely Leonid MININ and Alexandre ANGERT.

In particular, on 24-4-1998, at 8,00 pm the Honda Shuttle with licence plates nr AX744MW used by Leonid MININ, stopped next to the TRUKHANOV's house, via G. Belloni. MININ, ANGERT and TCHERNJAK got off from the afore-said car and met TRUKHANOV Hennadij. Then the four persons got into TRUKHANOV's house.

At about 8,15 pm Alexandre TCHERNJAK got out from the building and took Minin's car; he drove to Minin's house, via del Pollaiolo. At 9,00 pm he went back to TRUKHANOV's house.

On March 9, 1997 Leonid MININ was stopped by the Nice Customs Police while he was embarking on his private "Bentley" Jet owned by the LIMAD INTERNATIONAL TRADING". He was directed to Odessa.

On that occasion MININ was found in possession of about 10 gr of cocaine and, in compliance with the orders of the Nice Prosecutor's Office, he was summoned before the Nice Criminal Court on May 6, 1997. At the end of the relevant criminal proceedings MININ was sentenced to 8 months imprisonment.

On April 28, 1997, still before the afore-said sentence, the Monaco authorities, on the basis of the crimes ascertained on March, 9, 1997 at the Nice airport, prohibited Minin from staying in the Principality of Monaco. This measure was notified to Minin on June 17, 1997.

Leonid MININ had previous judicial records concerning drugs. In particular in 1994 the Swiss Interpol communicated that the Geneva police had started a criminal proceedings, instituted by Mrs Junods, the Geneva Examining Magistrate, against Minin for violation of Narcotics Law, with reference to the complaint lodged by TCHERKACHINA CALCATERRA Kristina, born in Moscow on Nov. 14, 1968, top model, former wife of Marcello CALCATERRA, domiciled in Milan, via Pacini 57. She had been stopped by the police at the border between Switzerland and France and on that occasion she had been found in possession of 9,8 gr of cocaine: she declared that Minin had asked her to take that cocaine to Switzerland for him.

The Principality of Monaco has communicated that Minin is under investigation since he is suspected of being involved in money laundering activities. In particular he has allegedly been in contact with FEDORITCHEV Alexei Michailovic, born in Moscow on 3.8.1955, managing director of the Monaco (SAM) FEDCOMINVEST, who, according to the Monaco investigators, had worked for the GALAXY ENERGY MANAGEMENT of Rome. FEDORITCHEV is suspected of being involved in an international traffic in arms carried out by means of the Geneva and Luxembourg branches of the afore mentioned companies that are located in Rome, via Bellini 2.

As far as the relations existing between MININ and TRUKHANOV are concerned, the German authorities have communicated that the latter was in possession of a Greek passport in the name of OUZOPOULUS Gennidas, born in Georgia, on Jan.17, 1965; the document had been shown to the Belgian authorities during a police control. According to the information provided by Nice competent service OUZOPOULOS Gennadios, born in Georgia on Jan. 17, 1965, a Greek national, passport nr K398701, issued on March 23, 1995, is considered by the Belgian police as Minin's body guard.

The analysis of the documents concerning Minin's flights on his private planes revealed that MININ and OUZOPOULOS arrived at Ciampino airport coming

from Odessa at 7,50 pm on March 14, 1996, flying on the VRCLI plane owned by the LIMAD company. On board of the same plane the afore-said persons left Rome at 7,15 am, on March 16, 1996 flying to Nice.

On Sept 15, 1997, at the Kursaal Hotel in Ostia Lido (Rome) Leonid MININ met REHBEIN Cristoph, born on 15-6-1954 in Bochum, who used the Volvo 860 with plates numbers RE C 3875, registered in the name of "AUTOHAUS THEILEN GMBH" West Ring 212 44579 CASTROP - RAUXEL. The aforementioned person stayed at Kursaal Hotel together with AFANAFIEV Alexandre, born on 11-4-1958.

The Dusseldorf police has communicated that REHBEIN Cristoph is an employee of the AUTOHAUS THEILEN GMBH and he is in contact with AFANAFIEV Alexandre and SACHAROW Evgenij, born on 6-5-1951, both of them having connections with the Russian mafia, and being investigated for laundering money and illicit profits. The latter has been arrested by the German police on charge of possession of cocaine. From the date of his arrest, Minin has been paying his lawyer and provides for the maintenance of his woman, KNECHT Tatjana, born in Moscow on 19-1-1958, and of his son, Daniel.

During a phone conversation with SHLYAM Irina, wire-tapped on Jan.18,1998, MININ said he was in China; since his Finnish mobile phone did not work, he was using the German cellular phone nr 0049/172/2149530. The Dusseldorf police has communicated that the afore-mentioned German phone number is registered in the name of Leonid BYSTROV, born in Leningrad on Jan.8, 1949, and used by Garegin MADATOV, friend of MININ connected to the criminal organization in question.

Among MININ's German acquaintances there is one SCHARFMANN Valerij, phone number 0049-172-3912611, born in Ordshonikidze (Tashkent) on Dec. 21, 1941, who has been reported for injuries, forgery, frauds, violation of the immigration law and, in 1996, he was investigated for money laundering.

As to the relations existing between MININ and TCHERNJAK, on May 12, 1998, at 10,00 pm both of them left by train from the Rome railstation and reached Merano on May 13, 1998, at 8,00 am. The phone conversations before their departure revealed that TCHERNJAK did not know the destination and the reason of their travel. During their one-day-stay in Merano MININ went to the "SINGER FRITZ AND BENN" dentist's. TCHERNJAK only resulted to be registered in a Merano hotel: he had reserved a double room without giving the name of MININ for the hotel registration.

RISERVATO

The phone conversations between Minin and Tchernjak while they were in Merano testified that MININ's worry was that they could be followed; on that occasion TCHERNJAK acted as a bodyguard.

In April 1998 FOMICHEV Nikolaj reached ANGERT in Rome and while the latter spent the night at the Aldovrandi Hotel, he stayed at TCHERNJAK's home. On April 26, 1998 FOMICHEV and ANGERT embarked the EL AL flight departing from Fiumicino airport at 11,00 am, directed to TEL AVIV. During his stay in Rome ANGERT met TCHERNJAK, TRUKHANOV and MININ.

The Austrian police has ascertained that on June 19, 1998, at 10,00 am, Alexandre TCHERNJAK arrived at Wien where he met TRUKHANOV Hennadij, IVANCHO Andrij, FOMICHEV Nikolaj and ANGERT Alexandre at the Penta Hotel. MARIYANCHIUK Vasyl, born on July 9, 1967 in Kiev, reached them at the afore-said hotel.

From June 26 to July 2, 1998 FOMICHEV stayed at the Hilton Hotel in Milan together with TCHERNJAK Alexandre, IVANCHO Andrey, TRUKHANOV Hennadij and one Serij (Serjoga).

On Sept. 9, 1998 the following persons arrived at the Villa Ariston Hotel, Lido di Camaiore (Lucca): ANGERT Aleksandre, owner of the passport nr 9010235; FOMICHEV Nikolaj, in possession of the passport nr 9008436; LASKI Doron Haim, born in Israel on Nov. 24 1969, owner of the Israeli passport nr 7617514 issued in 1998; ZAIRI Shai, born in Israel on April 24, 1970, in possession of the Israeli passport nr 5511644 issued in 1993. The hotel reservation was in the name of FOMICHEV and it had been made by VIGNOLA Salvatore, phone number 0338-5345873 (registered in the name of Vignola's wife, SEMENOVA Milena). The four afore-mentioned persons arrived on the grey coloured MERCEDES S500 with licence plates nr AV762MS, owned by SEMENOVA and driven by FOMICHEV. On Sept. 11, 1998 the persons mentioned above left the hotel; they were probably directed to GRAZ (Austria). The hotel bill was paid by FOMICHEV through the credit card nr C4580200103238040 issued by the "BANK LEUMI L/E" in Israel.

CONCLUSIONS

The awareness that the criminal expressions of Russian organized crime cannot be considered merely within the borders of single countries and that, on the contrary, they represent one of the most evident manifestations of the so-called "transnational organized crime", let us believe that one of the most effective way to combat them is the development of more and more effective forms of cooperation.

In this perspective, it is desirable that law enforcement agencies involved in the fight against these forms of crime establish a steady cooperation and identify safe channels to exchange information and corroborate evidence with their foreign counterparts, in those countries where the above mentioned criminal groups arose.

To this purpose, and to develop a more profitable cooperation, the setting up of an international Working Group is being proposed, by indicating a person of contact for each participating country. This would facilitate a rapid and direct exchange of information useful for investigative purposes, and the development of a common strategy against targets of interest.

SAVAS OIL

In March 1997, an investigation on **MININ Leonid** and on **SAIZEV Viatcheslav Michailovic**, also known as "Slava", born in Tbilisi on Dec. 11, 1949, Russian national and then naturalized German citizen revealed that both of them were connected to the so-called "Russian Mafia".

The latter is domiciled in Rome, Viale Bruno Buozzi 49, is married to **IDELSON Valentina**, born in Moscow on Jan. 31, 1948.

SAIZEV is the sole managing director of the "SAVAS OIL INTERNATIONAL Srl" company, operating in the oil products trade, with its head office in Rome, via di Torre Argentina 44, and other premises in Rome, via Settembrini 30.

The SAVAS OIL INTERNATIONAL Srl capital stock results to be owned by the "SAVAS OIL INTERNATIONAL CORPORATION" company, with its main office in Skelton Bldg, Main Street, Road Town, **Tortola (Virgin Islands)**, that is represented by the same SAIZEV Slava, in compliance with the special power of attorney issued in Geneva.

The company's legal representative is **LOSSEV Petr**, born in Russia, on July 15, 1953, subscriber of the cellular phone nr **0335-6158164**; **VICENTINI Giuseppe**¹, born in Rome on Nov 7, 1935, subscriber of the cellular phone nr 0335-8131916, is the manager of the oil products trade.

Further to the investigations, many phone calls of foreign phone numbers have been detected (see enclosure A); special connections in the fuel trade between **GALAXY ENERGY Srl** and **SAVAS OIL Srl** and **MININ's** participation in the company of the so-called "GALAXY group" have been ascertained (see enclosures B and C).

In this regard it should be stressed the following:

- The wire-tappings carried out in 1994 revealed that **Leonid MININ** answered the phone number **06-8413155**, registered in the name of **GALAXY MANAGEMENT S.A.**, founder of the Rome Galaxy Energy;

¹He is the former managing director of **BARTEROIL Srl**, with its main office in Rome, via Torre Argentina 44 (the same main office of SAVAS OIL), into liquidation from 17.2.1997.

- On March 9, 1997 Leonid MININ was controlled by the police while he was embarking on his private plane at Nice airport: he was found in possession of a Christmas card addressed to "Leonid MININ, at GALAXY Energy Srl, Rome, via Vincenzo Bellini 2."

- The LIMAD A.G. (directly managed by MININ) is linked to GALAXY ENERGY Srl, both because of the coincidence of their Italian main offices (via Bellini 2), and since they have the same representative in Italy, id ENICHLMAYER Susanne, former employee at the afore-said GALAXY Energy.

The only element connecting SAIZEV to MININ derives from a phone conversation in March 1997. During this conversation with his wife SAIZEV talked about a newspaper article that pointed out Minin as a person linked to the organized crime. According to the article MININ had set up the oil company called "SAVAN" by means of illicit profits.

"SAVAN" is the wrong name for "SAVAS".

On that occasion SAIZEV confirmed his previous relations with MININ and said to his wife that he never met him (MININ), since he was afraid of being involved in police investigations.

The afore-said circumstance derived from an article "CHECKMATE TO THE MOSCOW MAFIA", published on the "LA STAMPA" newspaper on March 19, 1997. In this article reference is made to the police operation that resulted in the arrest of many members of the Russian criminal organization led by ESSINE Iouri; some information about Alberto GROTTI and his contacts with MININ were provided by the article that reported the following sentence: MININ "has allegedly invested stolen money in the SAVAN company".

The investigations revealed the connections between SAIZEV and BOLSCHAKOW Jurj, born in Moscow on Nov. 21, 1965, resident of Dusseldorf from Nov. 18, 1983, phone number 0049-2159961627, and with KIRILLOV Vitalj, born in Russia on Apr. 10, 1949, resident of Geneva, Beam Soleil 10, president of the Russian oil company "I.E.C." (International Economic Corporation - M.E.S. in Russian language).

The relations between SAIZEV and KIRILLOV were very strict, in fact, they have spent together the summer holidays in Greece and at Porto Santo Stefano.

On Aug. 9, 1997 KIRILLOV Vitalj stayed in Rome at the Hassler Hotel, room nr 618, together with KIRILLOVA Nadejda, born in Russia on Jan. 6, 1957, resident of Moscow, Njasnitskaja 35. In the same period, KIRILLOVA Natalia born in Moscow on May 28, 1984, stayed at the same hotel, room 620.

KIRILLOV Vitalj and KIRILLOVA Nadejda participated in a meeting held in the Hassler meeting room and attended by the following persons:

- PACOLLI Behgjet, born in Vacallo (TI) on Aug. 30, 1951, Swiss national, resident of Lugano, identity card issued on June 9, 1997 in Montagnola (Switzerland); he stayd at Hassler Hotel, room 414;

- JELENIC Dragan, born in Massagno on Sept. 7, 1952, Swiss national, resident of Lugano, identity card issued on Jan. 16, 1977; he stayed at the Hassler hotel, room 415.

The elements gathered during the investigations were not sufficient to incriminate the subjects under investigation. However, it has been ascertained that they had huge financial resources deriving from the oil products trade.

In this context it should be stressed that on Oct. 21, 1997 some press agencies and newspapers reported the information concerning the imminent purchase of some shares belonging to the Banca di Roma in the amount of one billion US dollars. The purchaser was I.E. C., the Moscow oil company connected to SAVAS OIL.

This news has not been confirmed, but it cannot be excluded that the afore-said company had carried out the transaction mentioned above by means of intermediaries or front companies.
